Guess Who?
I am a singer born in Connecticut on October 16, 1977. I worked for more than a year as a gas station attendant to afford a guitar from a famous player. My debut album reached multi-platinum status. Though I'm an accomplished singer, I may be better known for my guitar skills.
Answer: John Mayer

EASY TIPS TO CREATE AN ENERGY-EFFICIENT HOME

Part 1

High energy consumption hurts the environment and your wallet. Here are suggestions to help you reduce energy consumption in your household.

Water Heater
- Minimize hot water use by taking shorter showers.
- Set your water heater at 120 degrees.

Conserving Water
- Take showers rather than baths. Showers use about a third as much water.
- Take shorter showers; consider using a timer.
- Avoid leaving the water running while shaving or brushing teeth.
- Don't use the toilet as a trash can.
- Use the dishwasher and washing machine only with full loads.
- Don't run water continuously for vegetable and dish washing.
- Water lawns in the morning to avoid evaporation.
- Keep grass at least 2 inches high to shade roots.
- Use mulch or ground-covering plants to prevent excessive evaporation.
- Use waste water from the house to water your garden.
- Plant native or drought-tolerant plants.
- Water trees slowly, deeply and infrequently to encourage deep rooting. A slow drip for an hour once a week should be sufficient for most trees.
- Use a broom rather than the hose to clean off walkways, patios and other outdoor areas.
- Use a bucket of water or a hose with an automatic shut-off nozzle when washing your car instead of letting the hose run.

Recycling
- Reduce the amount of garbage you generate by buying and using products wisely:
- "Precycle" by purchasing products in recyclable reusable containers.
- Purchase foods in bulk or concentrate.
- Avoid non-reusable nor easily recyclable products.
- Make two-sided photocopies.
- Use cloth rather than paper towels.
- Remove your name from mailing lists to stop unwanted junk mail.
- Reuse product whenever possible.
- Start a compost pile with leaves and grass clippings.
- Leave a coffee mug or two at work and avoid using disposable cups.
- Use blank back sides of used paper for scratch work.
- Purchase high-quality used items instead of new ones.
- Bring a reusable grocery bag to the store.
- Mend clothes and repair broken items.
- Invest in reusable products, such as cloth towels, sponges, glass dishes, metal eating utensils and rechargeable batteries.
- Drop off used motor oil, antifreeze and car batteries at places that recycle automotive wastes.
- Donate clothing, books, toys, appliances and furniture to charitable organizations.
